

Here are some of the reasons why we scrub & re-coat floors

- Not trapping the dirt at the door
- Not Vacuuming or dust mopping often enough
- Not changing the vacuum filters or bags often enough
- Not emptying dust mop often enough
- Not treating the dust mop
- Mopping with dirty water
- Worn center traffic area
- Embedded dirt accumulation
- Cleaning with hot water
- Improperly measuring the chemicals
- Using red or blue pads on the scrubber
- Burnishing dry
- Improper scheduled frequency

If you were to follow this list you would reduce scrub & re-coats to a minimum.
