

Installing Zing on top of any Floor Finish

In most cases you can install the **Zing Floor Care System** on top of any floor finish without stripping first. The exception is if the floor can only come clean with stripping. Ex: you have 10 coats of finish on the floor covering dirt.

Step 1 - Treat Dust Mop

**1 Spray for every
6 inch length of mop**

Step 2 -Dust Mop Floor

**Empty Dust Mop
and re-treat every
3,000 Sq. Ft.**

© Zing International, Inc. 2021

Zing International, Inc. • 6501 Congress Ave. #100 • Boca Raton, FL 33487

P.O. Box 480304 • Delray Beach, FL 33448

P: (800) 233-4485 • Email: mike@zingfloorcare.com

Step 3 - Spray Edges

**Spray with un-diluted
Floor Prep**

Step 4 - Measure Floor Prep

**Measure 8 oz. per
gallon with cold
water**

Step 5 - Mop Floor

**Allow 5 minutes
dwell time**

At this point I'm sure your thinking, "Hey wait a minute he tricked us, we are stripping" I promise you will not take off the finish. The amount of floor finish savings and labor to put it all down is WOW!

Step 6 - Scrub Floor

**Use regular strip pad,
add weights for best
results**

Step 7 - Wet Pick-up

Step 8 - Rinse Floor

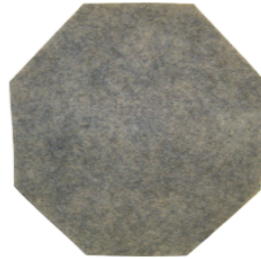

**Measure 2 oz. per
gallon with cold
water**

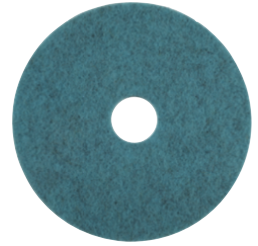

I can understand if you're scratching your head, "Why Burnish" you ask? You will notice a real difference if you burnish before putting down the finish. Burnishing tightens the finish and the new finish going down will smoothen out nicely.

Step 9 - CPC Burnish

Use Hair Pad

or

Americo
Blue Blend
Burnish
Pad

Measure a 3" ribbon
for each 1,000 sq. ft.

Step 10 - Dust Mop

Empty dust mop and
re-treat

Step 11 - Apply Floor Finish

**Zing Ultra Reflections
Floor Finish**

or

**Zing First Impression
Coating**

Number of coats to be applied based on desired look.

Both Zing finishes can be cut 50/50 with water, doubling your coverage!

Now you can begin maintaining your floor. Use Zing KLEEN-UP at 1 oz. per gallon cold water in a mop bucket or automatic scrubber. Not only will the KLEEN-UP clean the floor it protects the finish and will give it a little extra shine in the process.

Zing KLEEN-UP 1 oz. per gallon cold water in a mop bucket or automatic scrubber is all you need to clean, protect and polish your floor.
