

All About: **ZING CPC**

GREEN Certified

CPC (Cleaning and Polishing Compound) replaces spray buff, wet restoration products and procedures. Designed to enhance, protect and extend the life of any floor finish. Apply **CPC** each time the floor is burnished, using any speed machine. For quickest results, use machines 1500 + RPM including propane. **CPC** is transparent and leaves a non-slip, dust free, non-yellowing, mark resistant film that prolongs re-coating cycles and the life of floor pads. Consistent use of **CPC** has been proven to save 50-70% on labor, 30% on material costs and helps eliminate stripping. When **CPC** burnishing, use **Only One Green** for repairing high stress areas that cannot be repaired with normal mopping and scrubbing.

Directions

Note: Damp mopping or scrubbing prior to applying **CPC** is not necessary, unless floor is heavily soiled. If required, mop or scrub with **Zing KLEEN-UP** diluted at 1 oz. per gallon cold water.

Step 1 - Vacuum or Dust Mop to remove "Loose Dirt" and Dust.

Step 2 - Place any burnishing pad under any speed floor machine. *For best results use a 1,500 RPM burnisher equipped with a hair pad.*

Step 3 - Measure a 3" length of **CPC** on the floor in front of the machine. Clean and polish 1,000 sq. ft. and re-apply.

Step 4 - Vacuum or dust mop to remove the dry, dirt crystals created when burnishing.

Benefits

Transparent
Self-Removing
GREEN Certified
Increases life of finish
Reduces labor up to 70%
Exceeds ASTM standards
Increases life of floor pads
Eliminates dust and powdering
Eliminates spray buff and restorers
Works with all speed floor machines
Creates a protective shield against dirt

**The Heart of
The Zing Floor
Care System**

Packaged

4 x 16 oz. bottles case w/flip top caps
16 x 16 oz. bottles case w/flip top caps

Coverage

1 - 16 oz. bottle covers 225,000 sq. ft.

Specifications

Appearance of Product.....White cream
Odor.....Pleasant
Appearance of dried film.....Colorless, transparent
Active content.....60%
Removability.....Auto-reversible (each coat removes the previous)
Slip resistance.....Exceeds ASTM standards
Black mark resistance.....Excellent
Cleaning ability.....Excellent
Gloss after burnishing.....Superior
